RISK MANAGEMENT & TORT DEFENSE DIVISION

May 20, 2021

State Risk Management Committee

Good Afternoon,

We trust that you are safe, well, and enjoying this beautiful spring weather (at least until the weekend). It is customary for us to gather as a Risk Management Committee in May of each year to discuss important insurance, claims, and loss prevention issues. This year has been particularly difficult due to the COVID-19 pandemic and treacherous insurance market conditions that may affect the availability and affordability of commercial insurance.

In consequence, we have decided to wait until Fall of 2021 to hold our meeting so that we have more timely and accurate information at your insurance renewals on July 1st which also happens to coincide with the beginning of a new fiscal year. We may continue with our regularly scheduled meetings in September of each year, instead of May. As always, we appreciate your feedback on alternative date(s) and time(s) that may better suit your schedules.

Thank you for your understanding and we appreciate all that you do.

Best Regards,

Brett E. Dahl, ARM, Administrator

Risk Management & Tort Defense Division
